A first impression

Family-friendly detached house with charm ... For sale is a charming detached family home in bungalow construction, built in 1933/1994. The property is situated on a generous plot of approx. 498 m² and offers a living space of approx. 111 m². The bungalow comprises a total of four rooms, including three bedrooms and two bathrooms, both of which have windows. This not only offers enough space for a family, but also excellent lighting conditions in the sanitary areas. The property impresses with its well-kept condition. It has been modernized on an ongoing basis, most recently extensively in 2022. The modernization measures include replacing the heating, re-cladding the flat roof and giving the façade a fresh coat of paint. These measures ensure very good energy efficiency (D) and low maintenance requirements in the near future. A Wolf low condensing gas heating system, which was replaced in 2016, ensures pleasant warmth and economical operation throughout the house. Two of the radiators were replaced in 2019, which contributes to the improved efficiency of the central heating. Inside the house, you can expect an attractive interior design with vinyl flooring in the living area and kitchen, while laminate flooring has been laid in the bedrooms. The entrance area and hallway are fitted with easy-care tiles. A Bulthaup fitted kitchen from 1994, which was fitted with new electrical appliances in 2022, offers a functional and modern cooking environment. Particularly worth mentioning is the large, partly covered terrace, which can be used very well from morning to evening, thanks to the north-east-west orientation of the garden. The garden is easy to maintain and offers plenty of space for outdoor leisure activities. A garage with manual sectional door and additional connection to the garden as well as a carport in front of it offer numerous parking options directly on the property. The combination of timber frame construction in the old building and solid concrete construction in the 1994 extension combines traditional construction methods with modern architecture. This construction method guarantees longevity and an aesthetically pleasing design. The location of the house is impressive due to its family-friendliness and local transport connections. All important facilities such as schools, shopping facilities and medical services are within easy reach. In summary, this detached house offers a unique opportunity for families or couples who value a quiet residential location with a balanced mix of modern comfort and traditional charm. Arrange a viewing today and see the benefits of this well-kept property for yourself
